

Job Description

Skilled Manual Machinist

Purpose of Role:

Set up and operate conventional machine tools to manufacture parts and assemblies in accordance with supplied drawings/specification sheets. Complete work in a timely manner and to meet the machine build timeline.

Reporting to: Machine Shop Manager

Primary Responsibilities/Activities:

- ◆ Set up and operate conventional machine tools (centre lathe, capstan lathe, manual mill, pillar drill, etc)
- ◆ Perform shop calculations to determine optimum feeds and speeds
- ◆ Produce components to the required standard within the expected cycle times
- ◆ Use of related shop equipment, hand tools, and precision measuring instruments
- ◆ Self-inspection of all items manufactured, to verify conformance to drawings/specification sheets
- ◆ Complete specified machine safety checks & daily check lists
- ◆ Mentoring of junior team members
- ◆ Identify & communicate opportunities to enhance quality and reduce cost
- ◆ Work with and support other departments to ensure business objectives are achieved
- ◆ Ensure statutory and company procedures & practices are maintained
- ◆ Promote a safe working environment
- ◆ Booking of time to assigned work
- ◆ Other duties as may be required

Key Performance Measures:

- ◆ Work performed to the required standard
- ◆ Work completed within allocated task times
- ◆ Quality of technical solutions

Competencies/Skills:

- ◆ Team player
- ◆ Highly motivated
- ◆ Customer focused
- ◆ Change and goal orientated
- ◆ Realistic and pragmatic approach
- ◆ Good oral and written communication
- ◆ Attention to detail
- ◆ Proactive
- ◆ Flexible

Bradman Lake Group
